### Research Articles (Award Papers)

#### Smt Guman Devi Verma Memorial Best Woman Scientist Award Paper 2018 – Winner

- Effect of abiotic stress on the fitness of *Sclerotinia sclerotiorum*** – Tasvina R Borah and S Dutta 111

#### Smt Guman Devi Verma Best Woman Scientist Award Paper 2018 – Runner

- Towards managing *Ganoderma* induced mortality in Indian mesquite by indigenous bio-resources** – Ritu Mawar 127

### Research Articles

- Environmental factors decides the development of mango anthracnose incited by *Colletotrichum gloeosporioides* (Penz and Sacc) on the mango cultivars Langra and Dashehari in Haryana** – Sanjeev Leharwan, VK Malik, Rajender Singh, Surender Singh and Munish Leharwan 135

- Impact of *Trichoderma* species on myceliogenic and sclerotial behaviour of *Sclerotinia sclerotiorum* causing white mold of common bean** – S Chauhan, S Katoch, SK Sharma and PN Sharma 144

- Ditrophic interaction of the consortia - *Ochrobactrum intermedium* and *Klebsiella variicola* with the necrotrophic *Pythium aphanidermatum* alters the diversity of antimicrobial nonvolatile organic compounds (NVOC) to inhibit *Pythium aphanidermatum*** – T Kaviyarathinam, S Nakkeeran, T Raguchander and M Kavino 160

- Substrate induced lignocelulolytic enzyme secretion for maximising the yield of black poplar mushroom, *Agrocybe aegerita* under subtropical conditions** – K Sakthivel, G Thiribhuvanamala, S Madhavan and V Prakasam 170

- Evaluation of organic bio-formulations, de-oiled cakes, neem based formulations and biocontrol agents for the management of tomato wilt caused by *Fusarium oxysporum* f.sp. *lycopersici* (Sacc) Synder and Hans** – Pokhar Rawal, S Maurya, NL Meena and Lekha 177

- Management of *Phytophthora* blight of pigeonpea using *Trichoderma asperellum* and a chemical fungicide** – G Jadesha, Mamta Sharma and Narayan Reddy 192

- Histopathology of neem shoot naturally infected with *Phomopsis azadirachtae*, the die-back of neem pathogen** – K Girish, S Shankara Bhat and Syeda Kousar Fathima 204

### Short Communication

- Rapid mass culturing method of wheat (*Triticum* species) powdery mildew pathogen [*Blumeria graminis* (DC) Speer f.sp. *tritici* Marchal under controlled conditions at Wellington, The Nilgiris, India** – P Nallathambi, C Uma Maheswari, DP Singh, Santosh Watpade, PL Kashyap, B Aarthi, Priya Ravikumar, Anju Sharma and Rishav Kumar 211
